

GEKKO

FLOORING ADHESIVES

Gekko Flooring Adhesives is a range of expertly engineered self-contained pressurised adhesive systems for bonding floor & wall coverings. Installations include hygienic wall cladding, textile floorcoverings, underlay, PVC flooring profiles, linoleums, rubber floorcoverings, Marmoleum and vinyl floorcoverings.

- **UK NATIONWIDE DELIVERY**
- **FULL TECHNICAL SUPPORT**

All purpose surface tackifier

GEKKO G47 GENERAL PURPOSE SURFACE TACKIFIER

Gekko G47 provides a permanently tacky film of adhesive which prevents carpets tiles from moving when in place but still allows the tiles to be lifted up if required. The benefits of low odour, accurate application & ultra-fast installation times makes this a favourite with installers.

- Quick drying with long open time
- Portable system
- Non-chlorinated
- No outside power source required
- Provides a permanently tacky film of repositionable adhesive
- Suitable for use with raised access flooring, underlays, rubber crumb underlay, cork backing and carpets

SIZES AVAILABLE:

22ltr canister(500sqm)

High coverage surface tackifier

22ltr canister(600sqm)

High coverage waterbased surface tackifier

GEKKO G67 WATER BASED SURFACE TACKIFIER & ADHESIVE

Gekko G67 is a high performance water based tackifier applied through a spray gun and hose providing an extremely fast and efficient way of fixing down carpet tiles and loose laying of LVT and vinyl flooring.

- Suitable for use with loose lay LVT
- Water based technology
- Non-flammable propellant
- Provides a permanently tacky film of repositionable adhesive
- Designed for the installation of textile floorcoverings
- Safe for use in occupied areas

SIZES AVAILABLE:

22ltr canister(800sqm)

Non-flam contact adhesive

GEKKO G10 ZERO FLAM NC HP CONTACT ADHESIVE

Gekko G10 Contact Adhesive is designed for bonding a variety of substrates to subfloors. G10 is unique in that it is non-flammable, and non-chlorinated, providing a significantly safer alternative to other spray canister contact adhesives.

- Zero-flam Technology
- Non-flam propellant and non-flam adhesive
- Dichloromethane free (non-chlorinated) formulation
- 10% extra coverage
- Fast drying and long open time
- High grab

SIZES AVAILABLE:

22ltr canister(200sqm)

Guaranteed to bond vinyl

GEKKO G42 VINYL BONDING SPRAY CONTACT ADHESIVE

Gekko G42 is a high grab polyurethane based contact adhesive is designed for bonding vinyl profiles to many substrates. Unlike other canister contact adhesives on the market, Gekko G42 is based on polyurethane so it is resistant to bond failure caused by plasticizer migration, and so has a life time guarantee for bonding vinyl. If bonding vinyl or cap and cove, use G42 for a fully guaranteed bonding system.

- Lifetime guarantee against bond failure caused by plasticizer migration
- Endorsed by Quantum Flooring Solutions for use with their PVC Flooring Profiles
- 100% Waterproof with a temperature resistance of 169°C
- Passes sheer strength requirements for BS EN 14259

SIZES AVAILABLE:

22ltr canister(280sqm)

Contact adhesive for carpet and wall cladding

GEKKO G52 HIGH PERFORMANCE CONTACT ADHESIVE

The Gekko G52 canister system is designed for bonding a variety of substrates to subfloors. Gekko G52 creates an exceptional "greater coverage less weight" formula. Using CO-REZ technology results in an increase of up to 15% extra coverage per unit compared to other canister contact adhesives. G52 is ideal for bonding PVC hygienic wall cladding in vertical installations, and has an excellent temperature resistance of 115°C.

- CO-REZ Technology™ results in an increase of up to 15% extra surface coverage.
- Ideal for the vertical installation of hygienic wall cladding
- Fast drying with a long open time
- Good temperature resistance of up to 115°C

SIZES AVAILABLE:

500ml aerosol(8sqm)
22ltr canister(160sqm)

GP contact adhesive for carpets and wall cladding

GEKKO GP CONTACT SPRAY ADHESIVE

Gekko GP General Purpose Contact Adhesive canister system is designed for bonding carpets to subfloors. Gekko GP is a fast drying contact adhesive system with a long open time & good heat resistance. Immediate permanent bonds can be achieved by double-sided applications onto most substrates.

- Multipurpose contact adhesive suitable for use with a variety of substrates
- Designed for double sided flooring applications
- Low odour
- Fast drying

SIZES AVAILABLE:

22ltr canister(140sqm)
